- 3. Specific range**
- 4. Standards and certifications**
- 5. Aesthetic and technical benefits**

Waiting room of a medical practice - BELGIUM

CLIPSO® EXPERIENCE

Pharmacy

Don't get stuck choosing between hygiene and aesthetics: for your pharmacy, CLIPSO® offers made-to-measure solutions for every space. Whether you have sanitary, lighting or decorative requirements, different variations are possible for dressing each wall and ceiling.

Our commitment: to create a healthy, reassuring and friendly environment.

CLIPSO® EXPERIENCE

Dental practice

For your medical office, choose from CLIPSO's SO CLEAN range. Hygiene being your priority, you'll be won over by the antimicrobial and antibacterial coverings, bolstered by the A+ and the GREENGUARD Gold certifications.

To eliminate unwanted noise, consider a SO ACOUSTIC solution: the perfect way to maintain a calm and peaceful environment for your patients.

CLIPSO® EXPERIENCE

Hospital

Your challenge as a hospital is two-fold: to protect your patients while helping them forget that they're in hospital.

So how can you make a sterilised setting friendly and warm?

CLIPSO® offers you the right solutions through its hygienic and colourful coverings, helping you to ensure a healthy environment for your patients and bring a little life and colour to the hospital setting.

CLIPSO® solutions can also equip non-sterile reception spaces with shapes and colour!
