residential spaces:

1. New and refurbished
2. Rapid
3. Perfect finishing
4. No noise
5. Correction of construction defects

#### Residential - Bedroom - BELGIUM

Backlit printed walls  
Installation: MonaVisa

#### Residential - bathroom - Acoustic ceiling and printed canvas

### CLIPSO® EXPERIENCE

"My wife had the idea of printing her creation to brighten up our interior. All that remained was to choose the support: sticker, wallpaper, giant poster, PVC film, etc.

A durable material, pleasant to the touch, with good print quality, ecological, a one-piece covering...

CLIPSO® covering was perfectly suited. My wife is delighted because the result is great, breathtaking. "

**CHRISTINE & CLAUDE DECASSE, PARIS**

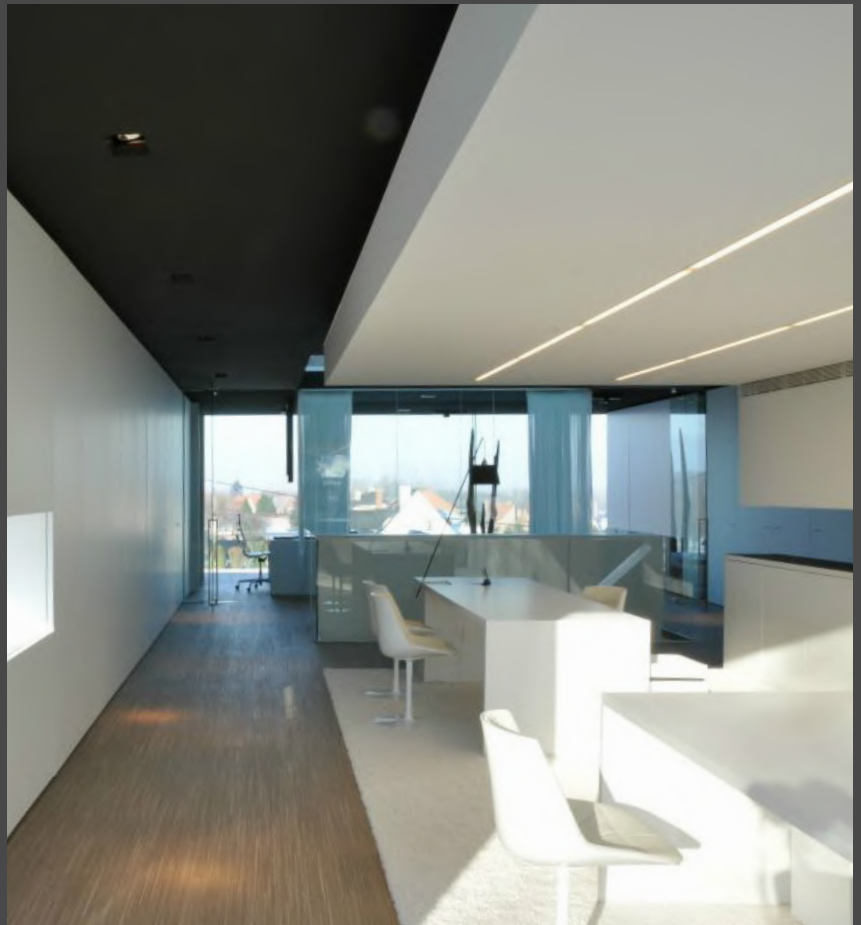

### CLIPSO® EXPERIENCE

"The house we'd just bought needed refurbishing. All the ceilings and walls were in very poor condition: scales, cracks, stains, holes, etc.

We opted for CLIPSO® after comparing it with other solutions on the market. And we're satisfied with the impeccable finish of our CLIPSO® ceilings and stretch walls.

What's more, the speed of installation allowed us to move in quickly. "

**SUZANNE & BERNARD WIMMER,  
STRASBURG**

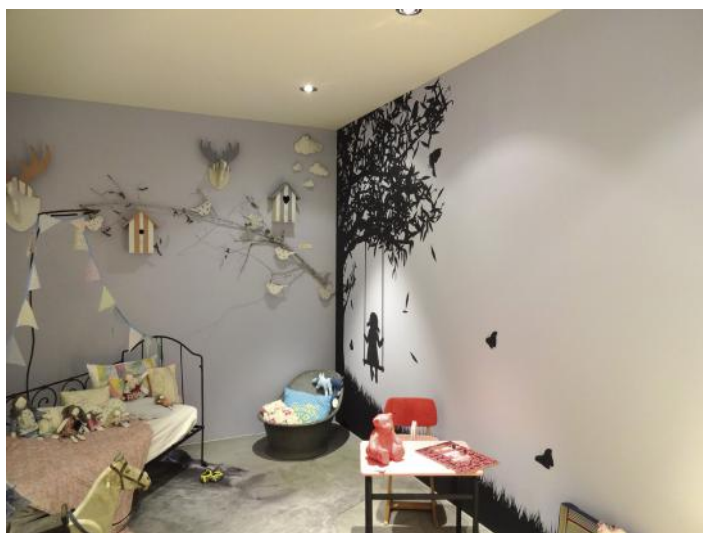

## CLIPSO® EXPERIENCE

"I had plans to transform my old attic into a modern office. Since I had no knowledge of decoration or DIY, I called on an interior designer in my city, who was also an approved installer of the CLIPSO® network.

My stretched ceiling fits perfectly into my new workspace, in perfect harmony with its contemporary styling. It also made it possible to hide all unsightly cables, lighting and ventilation systems. "
