

SO LIGHT

The solution for **illuminating** your interiors !

Made in France

CLIPSO®

so different

Part of Ecophon

Shopping mall - XXL light fixtures in aluminum structure - Backlit coverings - France - Application : SPIDER DESIGN

**Light is necessary, even vital
to regulates our body and mood.**

Dental clinic - Ceiling with backlit circles

Restaurant - Acoustic ceiling with light path integration and backlight - Denmark
Application : RALBO

**The brightness as for it, depends on the perception we have at the moment.
It's therefore essential today to adapt our interiors, workplaces as our "home", to evolve in a pleasant atmosphere that fits us.**

The SO LIGHT range has been developed to enhance your spaces; bright and friendly, sophisticated and elegant, or cozy and calming.

From the integration of spots in a stretched ceiling to a printed frame, through a translucent backlit fabric with LEDs, the SO LIGHT range allows you to imagine your own scenography.

Multiple forms

Acoustic

Translucent

Illuminated

SO LIGHT

Spots & optical fiber

Enjoy your home with a soft and warm atmosphere; your decoration is highlighted by a smooth brightness and well balanced.

Dream under the stars with the optical fibers embedded in our fabrics!
On walls or ceilings, you create a unique atmosphere that makes you dream.

Printed wall with integrated optical fiber - France
Application : CLIPSO PRODUCTION

IVECO booth - Ceiling with integrated optical fiber

SO LIGHT

LED & backlit

With the LED you have at your disposal an infinite choice: whether you need a mood lighting, either directional or functional lighting!

The compatibility of LED with our fabric gives you total customization: a printed coating with your choice of images or an artist's creation will create a unique atmosphere.

Backlit aluminum structures - Light Fixture - Switzerland
Application : Linsi-tech

Wall box - Backlit printed covering - Belgium
Application : City Outdoor

Want to play on light intensity or colors? Here again the association of a certain type of LED will allow you to create this soft and warm personalized atmosphere.

Our workshops will create the lighting you need, we will design for you the most suitable shape and offer various light intensities.

This shape will be modern, elegant, aesthetic or refined ...
Conform to your desires!

Restaurant - Backlit printed covering - Belgium - Application : MONAVISA

Shopping mall Akmerkez - Backlit covering - Turkey - Architect : Filiz Yilmaz - Application : TTI Elektrik Elektronik

Reception desk - Backlit RGB coverings - Thailand - Application : CCSE

SO LIGHT

Lighting & acoustic

Today, it is possible to do much more; beyond its strong aesthetic potential, the SO LIGHT translucent fabric combines acoustic performance.

Some public spaces are now designed to make acoustics as pleasant as possible, shopping malls in which ubiquitous noise must be mitigated, or medical practices where discretion is required.

Backlit trompe-l'oeil ceiling - Germany
Application : Baumann

Meeting room UNILEVER - Ceiling and backlit structure

Skills at your service

CLIPSO strives to support you at all stages of your project; from the sales team to the technical and design teams, we put all our skills and areas of expertise at your service.

Customized being our strength, the design office evaluates the feasibility of your project. If you need technical advice for the realization of a frame, an aluminum structure or a non-standard installation, the design office CLIPSO works with you to estimate, size and determine the most suitable solution.

The success of your achievement is our requirement.
